

A

range < reachable

Collision mode:

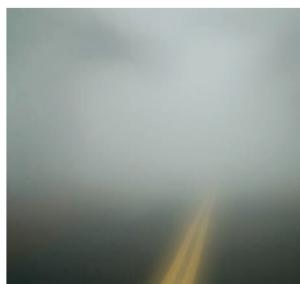

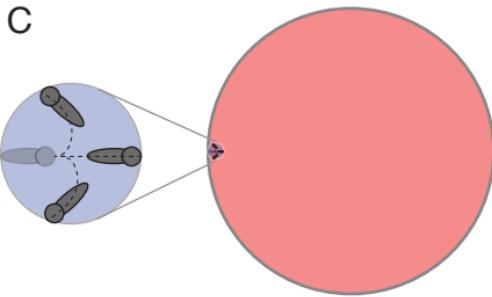

Sensory range from
initial position
smaller than
Reachable space
over $t=RT$

**B**

range ≈ reachable

Reactive mode:

Sensory range from
initial position
approximately equal to
Reachable space
over $t=RT$

**C**

range >> reachable

Deliberative mode:

Sensory range from
initial position
vastly larger than
Reachable space
over $t=RT$
